                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Sequence 32, Application US/09816763
; Sequence 32, Application US/09816763
; Patent No. US20020110814A1
; GENERAL INFORMATION:
   APPLICANT: Remarch, Datricia
; APPLICANT: Remarch, Patricia
; APPLICANT: Art, Muxiel
; TITLE OF INVENTION: METHOD AND KIT FOR THE GUANTIFICATION OF TRANSCRIPTIONAL
; TITLE OF INVENTION: DETECTION AND/OR THE QUANTIFICATION OF TRANSCRIPTIONAL
; TITLE OF INVENTION: PACTORS
; TITLE OF INVENTION: PACTORS
; TITLE OF INVENTION: PACTORS
; CURRENT APPLICATION NUMBER: 208/09/816,763
; CURRENT FILING DATE: 2000-03-24
; PRIOR APPLICATION NUMBER: EP 00870057.7
; PRIOR PLILING DATE: 2000-03-24
; NUMBER OF SEQ ID NOS: 150
; SEQ ID NO 32
; SEQ ID NO 32
               GENERAL INFORMATION:
APPLICANT: Remacle, Jose
